**INFUSED-GEL
BREATHABLE
PILLOW**

PL FOAMS INFUSED-GEL BREATHABLE MEMORY FOAM PILLOW is a combination of two technologies in one. Infused Gel Technology and Breathable Holes combine to give optimum cooling.

Unlike the regular Gel Pillows found in the market, the gel is blended homogeneously during the manufacturing stage to avoid specific area cooling. The Infused Gel technology provides uniform cooling throughout the pillow.

The fabric used for the pillow cover is specially designed to complement the Gel cooling, Breathable nature of the pillow.
